

Conflict-Free Minerals Policy Declaration

Attn: XMOS Customers

XMOS is committed to social responsibility and always aligned with the requirements of its customers. XMOS understands conflict minerals are an important concern world-wide; as a result, it has adopted the following policy on this important social issue.

XMOS does not directly source minerals from mines, smelters, or refiners, and is in most cases multiple levels removed from these market participants. XMOS, therefore, has taken and will continue to take due diligence within its supply chain to assure minerals of gold (Au), tantalum (Ta), tungsten (W), tin (Sn), cobalt (Co) and mica are not derived from or sourced from mines in conflict affected and high-risk areas per OECD's Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas.

XMOS would like to confirm minerals of mica, cobalt, gold, tantalum, tungsten, and tin present in its products are indeed "Conflict-Free".

Supplier Company: XMOS Ltd.
