REACH Position Statement

Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

REACH is a European Community Regulation on chemicals and their safe use (EC 1907/2006). It deals with the Registration, Evaluation, Authorisation and Restriction of Chemical substances. The law entered into force on 1 June 2007. The aim of REACH is to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. More information may be found at <https://echa.europa.eu/regulations/reach/understanding-reach>.

XMOS is a supplier of “articles” as defined in REACH. The “substances” contained in these articles are not intentionally released, nor do the articles contain any of the 223 substances on the candidate list of Substances of Very High Concern (SVHCs) published on January 17th, 2022.

For informational purposes, XMOS has contacted its material and manufacturing vendors and verified that XMOS devices do not contain SVHCs as defined in REACH.

If you have any questions or need further information on REACH compliance status of XMOS products, please contact your local XMOS sales representative.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Lippett'.
