REACH Position Statement

Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

REACH is a new European Community Regulation on chemicals and their safe use (EC 1907/2006). It deals with the Registration, Evaluation, Authorisation and Restriction of Chemical substances. The law entered into force on 1 June 2007. The aim of REACH is to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. More information may be found at <http://echa.europa.eu/regulations/reach>.

XMOS is a supplier of “articles” as defined in REACH. The “substances” contained in these articles are not intentionally released under normal and reasonably foreseeable conditions of use, nor do the articles contain any of the substances on Annex XIV and Annex XVII of Regulation (EC) No 1907/2006 candidate list of Substances of Very High Concern (SVHC) published on February 8th, 2016.

For informational purposes, XMOS has contacted its material and manufacturing vendors and verified that XMOS devices do not contain SVHCs. In addition, XMOS will continue to monitor the developments of the REACH legislation to ensure continued compliance.

If you have any questions or need further information on REACH compliance status of XMOS products, please contact your local XMOS sales representative.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Lippett', is positioned above the printed name.
